

QUEEN CAMEL PARISH – Flood Risk Assessment (FRA)

Introductory Notes

- 1: This document has been produced by the Queen Camel Flood Committee (FC) for the purposes of identifying all flood related risks within the parish, serving the local community in accordance with the FC Terms of Reference.
- 2: The document serves as the FC primary management tool for the development, initiation and sustainment of flood mitigation plans and measures.
- 3: This document will be regularly reviewed.
- 4: The document identifies two levels of risks, as follows:
 - Tier 1 Risk: Risk directly attributable to flood
 - Tier 2 Risk: Risk indirectly attributable to flood

QUEEN CAMEL PARISH – Flood Risk Assessment (FRA)

QUEEN CAMEL PARISH – Flood Risk Assessment (FRA)

#	Risk Description	With the consequence that ...	Probability	Impact	Category	Mitigation	Probability	Impact	Revised Category
1	Rising Water Henshallbrook overflows to the A359 [Greater than 2" rain in 12hrs] Tier 1 Risk	Local Property Damage Rising Water increases the risk and damage to property.	3	3	Medium	Reduce by: - Water Course Maintenance #A - FC Communications Plan #B - Correct setting sluice gates at 'The Old Mill' #C - Flood Protection (Property flood prevention measures – gates, NRVs, Underfloor Pumpsetc) #D - Sandbags ready on standby and distributed by FC Team as required. #E - Move Vehicles to High Ground	2	2	Low
2	Rising Water Henshallbrook overflows to the A359 Tier 1 Risk	Commuter Vehicle Damage Vehicles and passengers become stuck in water	4	3	Medium	Reduce by; Mitigation as in in item 1, plus - Warning Signs #F	1	3	Low
3	Rising Water Deep & Fast flowing water courses [River Cam and Henshallbrook] Tier 1 Risk	Risk to Life by Drowning Deep water becomes invisible, unpredictable water flows / loss of footing increasing risk to human /pet life.	2	5	Low	Reduce by; - Increasing local awareness - Warning Signs and Barricade Tape positioned at known danger spots #G	1	5	Low
5	Rising Water Flooding Fields Tier 1 Risk	Risk to Livestock Drowning or Starvation of animals as food source and access to fields become cut off.	2	2	Low	Reduce by; - Emergency Contact Plan #B	2	2	Low

QUEEN CAMEL PARISH – Flood Risk Assessment (FRA)

#	Risk Description	With the consequence that ...	Probability	Impact	Category	Mitigation	Probability	Impact	Revised Category
6	Surge Water Henshallbrook overflows to the A359 Tier 1 Risk	Local Property Damage Passing Vehicles create waves and surges of water that increases the risk of damage to property.	3	2	Medium	Reduce by; Mitigation as in in item 1, plus warning signs	1	2	Low
7	Surge Water With the river Cam already at high water Tier 1 Risk	Local Property Damage Incorrect use of water course control assets up-river to QC parish	2	2	Low	Reduce by; - Increased Awareness of responsibilities and fines - Report events to the LLFA	2	2	Low
8	Muscular Injuries or Strains Preparation or transportation of Sand Bags Tier 2 Risk	Physically Impairment Impact on Fitness to support FC role, prolonged injury or insurance claim	3	2	Low	Reduce by; - FC Team (sufficient persons) - Correct Equipment (Trolley, Sand Hopper) - Manual Handling Brief	2	2	Low
9	Injuries or Strains Manual control of Sluice Gates at 'The Old Mill' Tier 2 Risk	Physically Impairment Impact on ability to perform correct gate setting, prolonged injury or insurance claim.	2	2	Low	Reduce by; - Advance Preparation #C - Correct setting sluice gates at 'The Old Mill' #C - Correct Maintenance - Owner absence contingency plan (Back-up operator) #C	2	2	Low

QUEEN CAMEL PARISH – Flood Risk Assessment (FRA)

#	Risk Description	With the consequence that ...	Probability	Impact	Category	Mitigation	Probability	Impact	Revised Category
10	Incorrect setting of Sluice Gates at the 'Old Mill' in times of Flooding Tier 2 Risk	Increased risk to localised flooding	2	3	Low	Reduce by; - As item 9 (above)	2	2	Low
11	Insurance Excessive premiums or failure to secure Insurance cover Tier 2 Risk	Property owner pays for own repairs. Increased financial pressures and stress	2	3	Low	Reduce by; - EA advice - Knowledge Share	1	3	Low
12	Vehicles stranded in flood water blocking access for Emergency Services Tier 2 Risk	Risk to Human / Pet life An increased threat to Human or Pet Life	2	3	Low	Reduce by; Mitigation as in in item 1, plus - Warning Signs #F (to follow)			Low
